blackmail@theblackmarket.sg | [www.theblackmarket.sg](http://www.theblackmarket.sg)

After the 2<sup>nd</sup> year of operation, Blackmarket is expanding to another branch at #02-10 Orchard Central. Strategically positioned far from the hectic side of Orchard Road, Blackmarket no.2 came out of the underground yet maintaining the subliminal presence on the street.

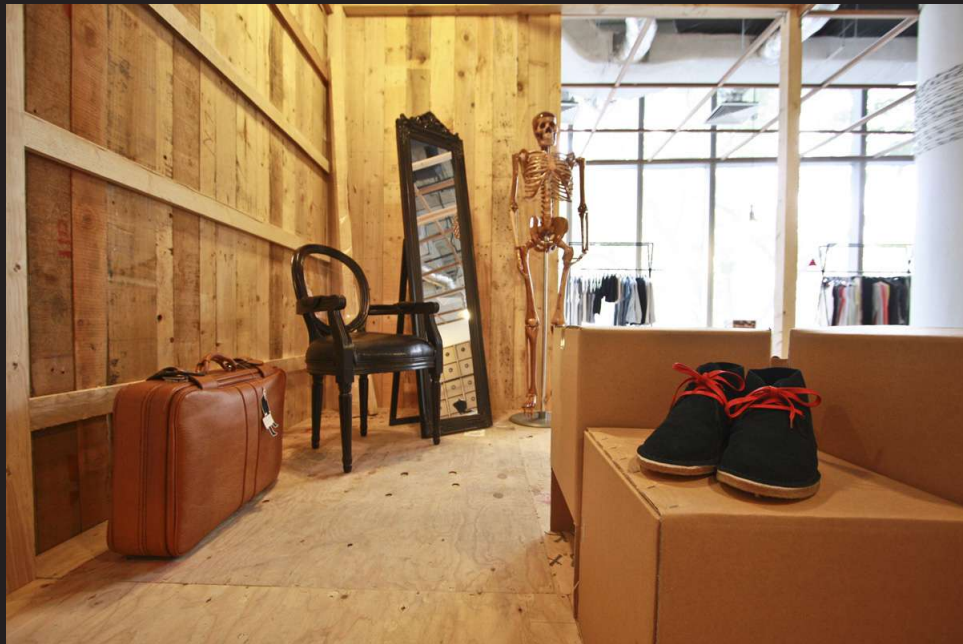

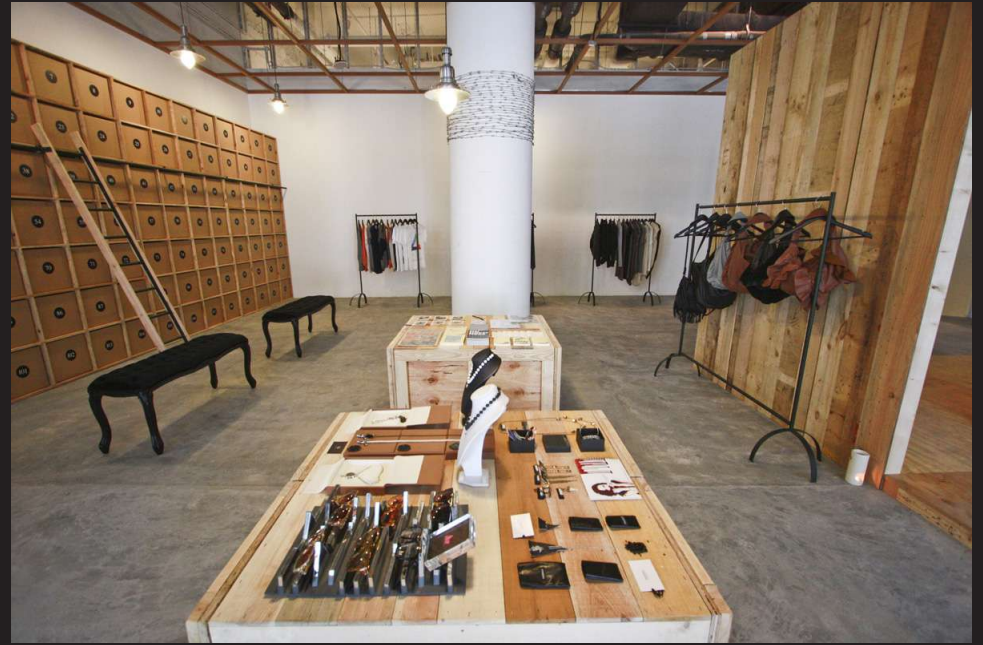

Blackmarket is expanding to support the response to the growing number of forward thinking fashion labels in Singapore, the Region and independent labels in international market. Being acknowledged across the region in fashion community for its unique approach in retail market and featured in the international press like Monocle, NYTimes, Vogue Milan, Planet Mag NY and the WGSN portal, Blackmarket is fast becoming the biggest multi-label shop that stocks burgeoning designers in the Asian Region.

The existing Blackmarket boutique at Jalan Pisang, corner of Victoria Street, will still operate to carry mostly the rare, small volume and limited designs. Blackmarket no.2 will be stocking designers that usually follow the seasonal collection. Both offering bold and inspiring labels not only in the region but also around the globe. The official launch will be on 27/January/2011.

Blackmarket no.2 interior design is created to parallel the idea of original store, emphasizing on raw materials, lacking any of the unnecessary polishing to keep the authentic state of the aesthetic. The interior space is solely conceptualized and designed by The Blackmarket Group Pte Ltd, to equal its brand philosophy.

Blackmarket No.2 allocated a shack-like structure in the middle of the unit for exhibition purposes, pop-up store and installation function. The area is available for booking upon request.
